

NJPSA Questionnaire for NJ Legislative Candidates of the 2023 GENERAL ELECTION

Thank you for your dedication to public service and for your interest in what is on the minds of the members of the NJ Principals and Supervisors Association (NJPSA).

NJPSA represents over 7,000 active school leaders in New Jersey's public schools. Our members serve in the positions of principal, assistant principal, director, and supervisor. We are dedicated to providing a high quality education to every student in New Jersey schools.

The following questionnaire is designed for you to share your perspectives on issues of concern to the NJPSA membership. NJPSA will publish your responses on our special NJPSA Election Center website in October to inform our members in their Election 2023 decision-making process.

Thank you for taking the time to share your perspectives with us!

Candidate's Name: *

Mitchelle Drulis

Office Sought: *

☒ NJ General Assembly

☐ NJ State Senate

☐ Other:

Safe Schools

School principals and supervisors are directly responsible for creating a safe, secure, and supportive learning environment for our students. A student's feeling of safety and security is at risk where school buildings are not up to health and safety standards, where the risk of gun violence can threaten our schools, and where school buildings are not fully equipped with current security staffing and equipment.

If elected to the State Legislature, what will you do to address school safety and security in the broadest sense, not only to upgrade the physical structures and equipment in our schools, but also to safeguard our students from the threat of gun violence or other threats to their safety?

Keeping our students and communities safe from gun violence is a personal issue to me, both as a parent and a public servant. I support sensible gun violence prevention laws such as background checks, etc. We also need additional support for students who are in crisis while continuing to offer grants to schools to upgrade physical structures and equipment. We also need to continue to make sure our schools remain a welcoming and safe space.

Student Mental Health

Even before the pandemic, school leaders grew concerned with the rising mental health needs of students. Post-pandemic, students have returned to school with a broad range of needs including mental wellness and academic needs. A recent CDC study found that the number of young adults with depression more than *doubled* from 2011 to 2021. School leaders and their staff do all they can to provide appropriate student support, but the inconsistent range of services and current case overload on service providers, mental health professionals, and outside mental health services is a great barrier. This school year, the Murphy Administration is launching a new network system called NJ4S to provide preventative and referral service options for schools. This, as yet untried, system is designed to replace the highly effective School-Based Youth Services Program, which provides direct funding to some school districts to offer mental health and related services directly in school.

As a state legislator, how will you prioritize, support, and fund student mental health issues in our schools? Will you advocate for continued funding for existing School-Based Youth Services programs in next year's budget discussions, as well as expansion for these tried-and-true SBYS programs?

I would support funding for mental health services for our students, and vote for legislation allocating money towards such programs. I believe having a school based program is important. Currently there is a significant wait for services once referred to a mental health professional. This wait can be as long as six months. The wait is too long.

Staffing Shortages/Educator Pipeline

One of the top concerns of NJPSA members is fully staffing their schools in all school roles, including teachers. Once again, the pandemic exacerbated a rising problem in our schools - the dwindling number of young people entering the education profession as teachers, counselors, and other critical school staffing positions. The State Legislature has been working to address barriers to the teaching profession within the licensing code and teacher preparation system.

If elected/reelected, what new ideas will you bring to this issue to ensure that our schools are fully staffed with well-qualified and prepared teachers and education service professionals?

The NJ Legislature has passed a number of bills to address this issue. I am told there is a substantial lag time in getting certifications processed so that substitute teachers can begin working in the classroom. This must be addressed immediately.

I also believe that it is important to speak out against those who try to villainize our education professionals in the name of "parents rights." If we as a state want to attract more education professionals, we need to lift up the work done by these professionals.

Social Media Impacts on Students

The U.S. Surgeon General recently reported on the “profound risk of harm” that social media poses to the mental health and well-being of children and adolescents. Recent tragedies in New Jersey, including the suicide of several young students, amplifies this danger. Social media frequently plays a persistent, negative role in bullying incidents both at and away from school. Principals face impenetrable roadblocks placed by social media companies in addressing these issues.

If elected/re-elected, how will you work with NJPSA to develop legislation that protects the online safety, privacy, and welfare of our students; requires social media companies to develop safer products for student use; and requires social media companies to work with schools and law enforcement in cases where students are harmed by social media use?

The social media algorithms and their impact on everyone, particularly students, are of great concern especially when they are used by social media to increase the amount of time one spends on social media. Combined this with the use of social media by our kids as their most common forms of communication, and as a parent, I know its a recipe for disaster. I have a teen-age child and its an on going battle to keep her off certain social media platforms. I would welcome the chance to work with the NJPSA to find real legislative solutions to address these issues.

Learning and High Stakes Testing

NJPSA believes that student assessment is an integral part of the instructional process that is inextricably linked to a viable curriculum and strong instructional practice. Constructive and well-designed assessments provide on-going, actionable, and timely information to students, parents, and educators concerning what students know, understand, and can do in relation to our learning standards. Currently, New Jersey students are assessed in English Language Arts, Mathematics, and Science via standardized tests according to federal and state requirements during their elementary, middle and high school careers.

NJPSA believes that New Jersey must streamline its testing requirements to avoid over-testing, duplicative testing, and tests that students do not consider relevant to their futures, especially at the high school level.

What role do you believe standardized testing should play in a student's academic life? How would you assist educators in streamlining current requirements and eliminating unnecessary testing?

As a parent, I think we are testing our kids too much. I would like the state to look at the testing to see where we can limit how much we test. I am particularly concerned about the high school testing requirements and believe we should look at other ways to measure high school proficiency.

Learning and High Stakes Testing

Will you vote in support of [S-3308/A-4639](#), legislation that would eliminate New Jersey's high school graduation exit test, a requirement that serves as a potential barrier to graduation for many students?

- ☒ Yes
- ☐ No
- ☐ I don't know/prefer not to say
- ☐ Other:

School Funding

New Jersey schools are reliant on state, federal, and local funding to support our programs and services. Many districts are facing higher costs to operate, staffing shortages with negative fiscal impacts, health care cost increases, and new costs resulting from health and safety needs post-pandemic. Federal funding has assisted districts in meeting some of these challenges, but those funds must be used by 2024. Additionally, some districts have faced significant additional cuts in state funding due to changes in the law which redistributed state aid (S-2).

How will you work with NJPSA and other education stakeholders to address these funding concerns moving forward?

In the legislature, I would support reevaluating the school funding formula to ensure districts such as mine in LD16 don't suffer from undeserved budget cuts, and we can continue to provide our students with the quality education they deserve.

.....

School Funding

Would you vote to eliminate or modify the 2% tax levy cap on school budgets in certain situations?

- ☐ Yes
- ☐ No
- ☐ I don't know/prefer not to say

☒ Other:

This question is part of the larger question of school funding. Please see my answer above. The entire formula needs to be reevaluated and school tax levy caps should be part of that reevaluation.

School Funding

How would you work to address the funding needs of the S-2 districts since the fiscal world has significantly changed since that legislation was enacted in 2018?

The entire formula needs to be reevaluated and school tax levy caps should be part of that reevaluation.

The Right to Read – Book Bans

NJPSA is proud of New Jersey's strong student learning standards which have been highly rated across the country. A key component of all our learning standards is the goal of developing critical thinking and the analysis of multiple resources. Our members work hard to support student learning by working with our teachers to provide a rich curriculum aligned to these standards and the use of high-quality books and materials as support. We also partner with our parents to be part of their child's learning process. NJPSA is concerned about the rising incidence of demands to ban certain books from school libraries and the curriculum. While parents can surely direct the reading choices of their children, they should not be able to direct what resources and books are available to other students.

Will you commit to protecting a student's right to read and learn according to New Jersey's student learning standards (NJSLS) by opposing any legislation designed to infringe on those student rights? As a state leader, how can you assist educators in communicating this message to parents and community stakeholders?

I will always fight against censorship in our schools and libraries. As a parent, I am invested in my daughter's education, and know that the reason New Jersey shines as a leader in quality public education is that we teach well-rounded curriculums that don't shy away from difficult topics. Treating our students like the adult we're preparing them to become is hard but vital, so I will always support legislation aimed at allowing educators the freedom to teach, and students the freedom to learn.

Pension Funding

In recent years, New Jersey has honored its obligations to make the full actuarially required annual payment to the Teachers Pension and Annuity Fund (TPAF) and Public Employees Retirement System (PERS) under a schedule or repayment established by state law.

Will you continue to honor this obligation moving forward and fight to ensure that the public pension system for school employees is fully funded in next year's State Budget Process?

- ☒ Yes
- ☐ No
- ☐ I don't know/prefer not to say
- ☐ Other:

The End.

Thank you for sharing your perspectives with NJPSA members statewide!

Is there anything else that you would like our members to know about you or your candidacy?
