

NJPSA Questionnaire for NJ Legislative Candidates of the 2023 GENERAL ELECTION

Thank you for your dedication to public service and for your interest in what is on the minds of the members of the NJ Principals and Supervisors Association (NJPSA).

NJPSA represents over 7,000 active school leaders in New Jersey's public schools. Our members serve in the positions of principal, assistant principal, director, and supervisor. We are dedicated to providing a high quality education to every student in New Jersey schools.

The following questionnaire is designed for you to share your perspectives on issues of concern to the NJPSA membership. NJPSA will publish your responses on our special NJPSA Election Center website in October to inform our members in their Election 2023 decision-making process.

Thank you for taking the time to share your perspectives with us!

Candidate's Name: *

Damon J. Englese

Office Sought: *

☒ NJ General Assembly

☐ NJ State Senate

☐ Other:

Party: *

Democrat

Republican

Independant

Other:

Legislative District #: *

39

Safe Schools

School principals and supervisors are directly responsible for creating a safe, secure, and supportive learning environment for our students. A student's feeling of safety and security is at risk where school buildings are not up to health and safety standards, where the risk of gun violence can threaten our schools, and where school buildings are not fully equipped with current security staffing and equipment.

If elected to the State Legislature, what will you do to address school safety and security in the broadest sense, not only to upgrade the physical structures and equipment in our schools, but also to safeguard our students from the threat of gun violence or other threats to their safety?

Yes, I will fight every day in the legislature to keep our children safe in schools. I am a public school principal in Bogota for the past nine years and have been a school administrator for over 17 years and student safety is my number one priority. I have personally budgeted for adding cameras each year totaling over 75 in my school as well as a panic lockdown button installed in various locations around my building. I am also a member of the NJPSA and NAESP.

Student Mental Health

Even before the pandemic, school leaders grew concerned with the rising mental health needs of students. Post-pandemic, students have returned to school with a broad range of needs including mental wellness and academic needs. A recent CDC study found that the number of young adults with depression more than *doubled* from 2011 to 2021. School leaders and their staff do all they can to provide appropriate student support, but the inconsistent range of services and current case overload on service providers, mental health professionals, and outside mental health services is a great barrier. This school year, the Murphy Administration is launching a new network system called NJ4S to provide preventative and referral service options for schools. This, as yet untried, system is designed to replace the highly effective School-Based Youth Services Program, which provides direct funding to some school districts to offer mental health and related services directly in school.

As a state legislator, how will you prioritize, support, and fund student mental health issues in our schools? Will you advocate for continued funding for existing School-Based Youth Services programs in next year's budget discussions, as well as expansion for these tried-and-true SBYS programs?

The increase in mental health issues among our youth is on the rise. I will make sure as much funding is supplied to districts to support mental health programs as I ensure they are funded in my school district where I serve as a principal.

Staffing Shortages/Educator Pipeline

One of the top concerns of NJPSA members is fully staffing their schools in all school roles, including teachers. Once again, the pandemic exacerbated a rising problem in our schools - the dwindling number of young people entering the education profession as teachers, counselors, and other critical school staffing positions. The State Legislature has been working to address barriers to the teaching profession within the licensing code and teacher preparation system.

If elected/reelected, what new ideas will you bring to this issue to ensure that our schools are fully staffed with well-qualified and prepared teachers and education service professionals?

Once again, I deal with these issues first hand as a public school principal trying to staff my building. I will work tirelessly in the legislature to make sure we are doing all we can do to attract highly qualified educators and remove any barriers that may be causing prospective teacher candidates from entering this profession.

Social Media Impacts on Students

The U.S. Surgeon General recently reported on the “profound risk of harm” that social media poses to the mental health and well-being of children and adolescents. Recent tragedies in New Jersey, including the suicide of several young students, amplifies this danger. Social media frequently plays a persistent, negative role in bullying incidents both at and away from school. Principals face impenetrable roadblocks placed by social media companies in addressing these issues.

If elected/reelected, how will you work with NJPSA to develop legislation that protects the online safety, privacy, and welfare of our students; requires social media companies to develop safer products for student use; and requires social media companies to work with schools and law enforcement in cases where students are harmed by social media use?

I face the challenges daily as a principal of social media. We as a district have implemented many safety measures such as Gaggle alerts and GoGuardian which monitors the students as they are online both in school and at home and alerts the administration of alarming issues if they are using a school device. I think as a state we can do more and I will work towards ensuring this.

Learning and High Stakes Testing

NJPSA believes that student assessment is an integral part of the instructional process that is inextricably linked to a viable curriculum and strong instructional practice. Constructive and well-designed assessments provide on-going, actionable, and timely information to students, parents, and educators concerning what students know, understand, and can do in relation to our learning standards. Currently, New Jersey students are assessed in English Language Arts, Mathematics, and Science via standardized tests according to federal and state requirements during their elementary, middle and high school careers.

NJPSA believes that New Jersey must streamline its testing requirements to avoid over-testing, duplicative testing, and tests that students do not consider relevant to their futures, especially at the high school level.

What role do you believe standardized testing should play in a student's academic life? How would you assist educators in streamlining current requirements and eliminating unnecessary testing?

As a public school principal I see the students are over tested and the stress not only on the students from testing but the teachers as well. It is not fair tat teachers, administrators, school districts and students are judged by these standardized tests. I think the state needs to take a deep dive into the amount of testing required by students and for a committee of educators to assist in this process. I for sure would be willing to spearhead this as a principal and educator.

Learning and High Stakes Testing

Will you vote in support of [S-3308/A-4639](#), legislation that would eliminate New Jersey's high school graduation exit test, a requirement that serves as a potential barrier to graduation for many students?

- ☒ Yes
- ☐ No
- ☐ I don't know/prefer not to say
- ☐ Other:

School Funding

New Jersey schools are reliant on state, federal, and local funding to support our programs and services. Many districts are facing higher costs to operate, staffing shortages with negative fiscal impacts, health care cost increases, and new costs resulting from health and safety needs post-pandemic. Federal funding has assisted districts in meeting some of these challenges, but those funds must be used by 2024. Additionally, some districts have faced significant additional cuts in state funding due to changes in the law which redistributed state aid (S-2).

How will you work with NJPSA and other education stakeholders to address these funding concerns moving forward?

Being an educator and principal for so many years I can ensure that every dollar I can find is given to support our schools. When funding is cut, programs get cut which result in affecting the students. I have seen first hand what underfunding our public schools do and I can ensure I will fight in the legislature that this never happens.

.....

School Funding

Would you vote to eliminate or modify the 2% tax levy cap on school budgets in certain situations?

- ☒ Yes
- ☐ No
- ☐ I don't know/prefer not to say
- ☐ Other:

School Funding

How would you work to address the funding needs of the S-2 districts since the fiscal world has significantly changed since that legislation was enacted in 2018?

I believe we need to make sure all students get a "thorough and efficient education." and we need to take a closer look at funding to make sure all districts get adequate state funding.
.....

The Right to Read – Book Bans

NJPSA is proud of New Jersey's strong student learning standards which have been highly rated across the country. A key component of all our learning standards is the goal of developing critical thinking and the analysis of multiple resources. Our members work hard to support student learning by working with our teachers to provide a rich curriculum aligned to these standards and the use of high-quality books and materials as support. We also partner with our parents to be part of their child's learning process. NJPSA is concerned about the rising incidence of demands to ban certain books from school libraries and the curriculum. While parents can surely direct the reading choices of their children, they should not be able to direct what resources and books are available to other students.

Will you commit to protecting a student's right to read and learn according to New Jersey's student learning standards (NJSLS) by opposing any legislation designed to infringe on those student rights? As a state leader, how can you assist educators in communicating this message to parents and community stakeholders?

As an educator and principal I will always protect student rights and I oppose legislation that infringes upon student rights. I feel my experience as a long time educator will help deliver this message in Trenton.

Pension Funding

In recent years, New Jersey has honored its obligations to make the full actuarially required annual payment to the Teachers Pension and Annuity Fund (TPAF) and Public Employees Retirement System (PERS) under a schedule or repayment established by state law.

Will you continue to honor this obligation moving forward and fight to ensure that the public pension system for school employees is fully funded in next year's State Budget Process?

- ☒ Yes
- ☐ No
- ☐ I don't know/prefer not to say
- ☐ Other:

The End.

Thank you for sharing your perspectives with NJPSA members statewide!

Is there anything else that you would like our members to know about you or your candidacy?

It would be a true honor to be endorsed by the NJPSA as I am a current member and have been an educator for over two decades. I have worked in every aspect of education. I started as a teacher then moved onto a vice principal, acting superintendent, school business administrator and my current role as a principal. I also had a number of years where I worked for the NJDOE to assist underperforming schools turnaround by coaching principals. I look forward to hearing from you soon. Thank you!
